About us

Al Inshrah, primarily an electrical panel builder and signage manufacturer, has been in the UAE since 1985. We have been part of almost every large project in the UAE and GCC, supplying them with industrial and architectural signage. With the expanding GCC market, we have diversified into many fields including advertising, promotional, exhibition and retail signage solutions and custom metal fabrication.

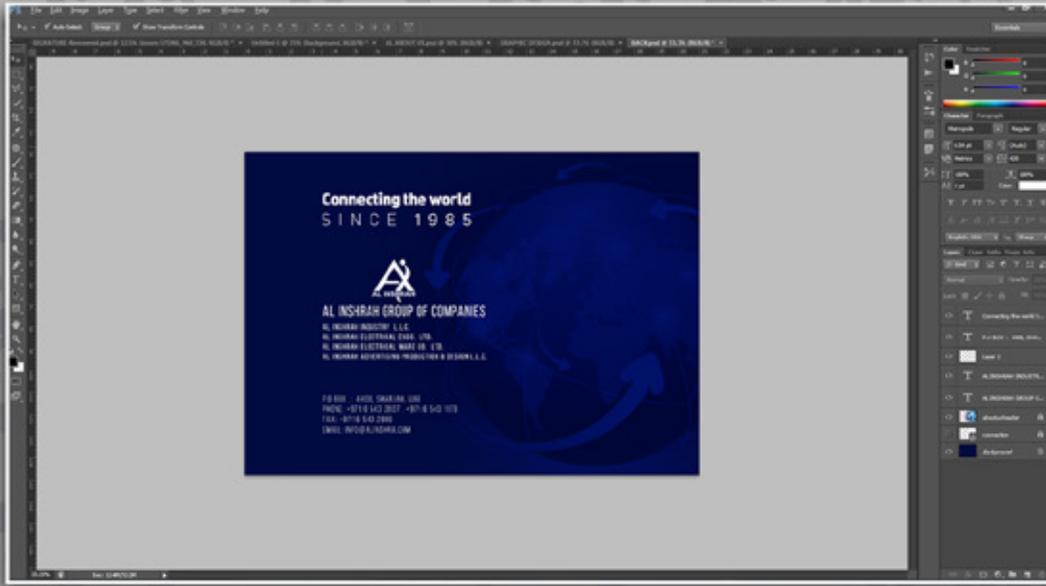

We provide turnkey solutions for industrial and commercial signage requirements from design to execution, installation and maintenance. Being a stockist of raw materials for the advertising industry and having three decades of electrical and fabrication experience makes us entirely self sufficient. This added to a fully in house operation translates to cost effective and timely execution.

Our broad and in-depth knowledge of design and fabrication substantially improves our clients business performance, enhances their brand and facilitates them to retain and draw in their target audience. We pride ourselves on not just being creative and innovative but also being able to execute these ideas to the full satisfaction of our clients. We handle a variety of projects ranging from design, individual labels, small scale retail signs to multi tier exhibitions stands, traffic, gantry and construction site signs that span tens of meters in height. Being in the industry for over three decades, we know that it is not just aesthetics but quality and customer service that are key factors in perfecting the right product for every market.

At the center of any engaging experiential campaign lives a big idea but it must be brilliantly executed, it should be measurable, easily understood and affordable. It doesn't necessarily mean gigantic, often the biggest ideas can actually be quite small in terms of cost.

From corporate Identity, annual reports, brochures, profiles, stationary to outstanding websites and digital marketing, our team will bring experiences and creativity together with your visions and expectations as our inspiration.

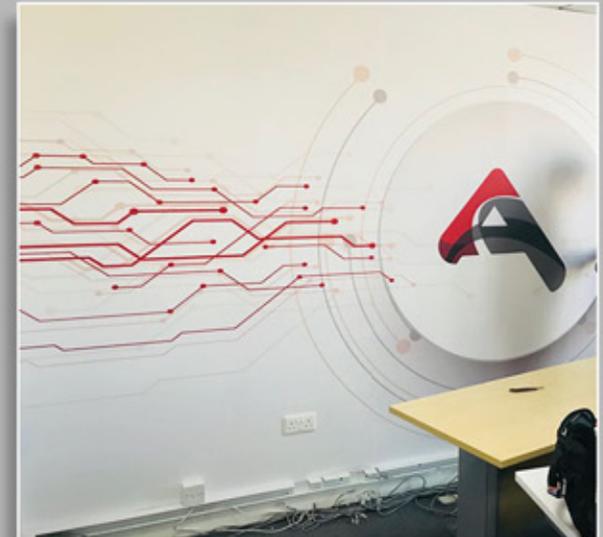

Graphic Design

The process involved in creating a unique name and image for a product in the consumer's mind, mainly through advertising campaigns with a consistent theme is what we strive to achieve. Branding aims to establish a significant and differentiated presence in the market that attracts and retains loyal customers.

While a logo alone may be enough for smaller companies, a successful brand design will create a cohesive look throughout your business while representing your brand values. In addition to a logo, branding can include marketing collateral, websites, menus, uniforms and even the physical business space.

3D DESIGN & VISUALIZATION

...CONNECTING THE WORLD...

3D Visualization is the most flexible and effective method of showcasing and advertising a product, that already exists, does not yet exist or is still in the process of development. To do so, we start from the blueprints or sketches provided by you, to be sure the effect will be identical to what our client has in mind.

We specialize in preparing static 3D illustrations, as well as more dynamic presentations, like 3D animation, 360° panorama and virtual walks. Our company has been working with various companies doing business in the fields of architecture, spatial planning, housing development, interior designing, engineering and furniture production.

3D Design & Visualization

PRINTING & INSTALLATIONS

...CONNECTING THE WORLD...

We provide all kinds of graphical printing solutions to our clients. Printing on various surfaces or substrate from banners to vinyl or from foam boards to acrylic and glass, we have the expertise and machines to execute the job. In this digital age, your brand should stand apart and needs more attention.

Al Inshrah designers clubbed with advanced machineries, cutting edge technology and skilled personnel ensures custom solutions for all your graphical requirements be it large format printing, digital signage, acrylic signs, vehicle branding and more.

Printing & Installations

Printing & Installations

Signs are so intricately woven into our society that many people do not even realize how we use them. Whether they are commercial, directional or interior signs, they provide necessary communication and security. Door signage makes a first impression that can support the image of a business. A well designed and easy to read sign lets clients and associates know that you care about what you do and want to advertise your services clearly and with class.

Our job is to make you look good through your signs. We offer a wide variety of signs on various substrates from plastics to metal, engraved signs, framed signs, lit and non lit signs and architectural signs with a balance of style and substance. We design, fabricate and install static 2D, 3D and dynamic signage including construction project signs and presentation display screens for retail and advertising purposes.

TRAFFIC & SAFETY SIGNS

...CONNECTING THE WORLD...

We are one of the major traffic signage manufacturers in the UAE, producing signs for government and non government agencies to international standards. We use first-rate materials and the best equipment to produce outstanding quality products, all of which come with a comprehensive long-term warranty.

We manufacture and supply ferrous, aluminum and plastic-coated traffic posts as well as a range of safety products including bollards, cones, road studs, flash lighting, mirrors and barriers. We offer a comprehensive range of traffic signs which include maximum speed limit signs, 'stop' and 'give way' signs, motorway signs, entry and exit signs, parking signs, information directional signs, overhead and cantilever gantry signs, temporary traffic signs, warning and regulatory signs, variable message signs and more.

INDOOR & OUTDOOR LED PANEL DISPLAYS

...CONNECTING THE WORLD...

We offer state-of-the-art LED digital signage that serves to transform your event, retail space or business into an unforgettable interactive digital experience. We strive to offer rugged LED displays that you can rely on in adverse weather conditions and climates that allow you to reach your audience with ease.

Engaging your customers is imperative to creating a unique and unforgettable experience that drives revenue. LED signage attracts attention and increases overall customer traffic while reinforcing your brand identity. We understand that no two video display needs are alike, and can help your display no matter the size or shape become a reality. Each LED display project is unique, and we pride ourselves on developing customer solutions for each and every customer.

We have extensive experience working with all types of clients including architects, designers, engineers and consultants from initial vision to finished install. We work with your team to seamlessly add LED panel displays into your vision.

EXHIBITION STANDS & KIOSKS

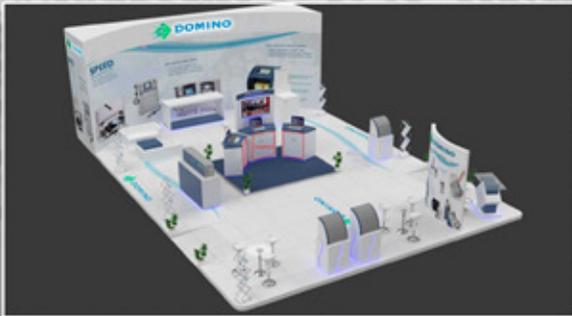

...CONNECTING THE WORLD...

Al Inshrah offers the ultimate stand solution. From single storey to multi-level and double deckers, our experts bring your vision to life with detailed 3D designs and renders tailored to meet your every need and budget. As we handle every element in house, from design and production to build and storage, the highest quality is assured at the most cost effective pricing.

Wherever the venue, indoors or out, in the UAE or beyond, our talented teams are skilled at building in any and every environment. We will make your exhibition experience as stress free as possible and we will build a tailor made stand to give you a completely individual presence at the show to help you achieve your strategic marketing goals.

We put the same dedication and effort to design, manufacture and install high quality, flexible, portable and modular kiosks to many sectors including education, health, construction, retail and catering. From small display stands to multi level container conversions, we have custom solutions for you.
